Attachment withheld under (b) (5) (DP).  
Responsive material: two references to "the  
Fox Hills-Hell Creek aquifer."

On the Parshall SWA, let's (b) (5) (DP), (b) (5) (ACP)

. I've  
attached my comments/suggestions.

Suzanne: O.k., here's the latest version of the water resources comments....can't take the struggle bus anymore today! I've tried to pull together all the EP input and address your comments on the previous draft. There are still several outstanding issues to resolve as noted in the comments....waiting for additional EP input. I'm also attaching 3 files (there may be a 4<sup>th</sup> one too – one of the pending issues) to include in the transmittal to Mark:

1. September 11, 2013 letter from ND State Engineer to TAT
  2. Parshall SWA – just completed (b) (5) (DP)
  3. An EP-generated map of the FBIR public water supply distribution system (b) (5) (DP)
- I'll leave it up to you as to whether (b) (5) (DP)

Have a nice w/e!
